Enplaned	19,990	17,002	17.6
Deplaned	23,023	19,719	16.8

On October 31, 2018, Houston City Hall approved the updated contracts and funding for the redevelopment of George Bush Intercontinental Airport. The adjusted International Terminal Redevelopment Program (ITRP) has a budget of \$1.2 billion and includes refurbishing the existing Terminal D facility, as well as demolish the Terminal D/E parking garage to allow for an International Terminal Processor. All the ticketing counters, security lanes and baggage claims will be consolidated and moved into the central processor situated between Terminal D and Terminal E. The plans are expected to be mostly complete by 2024.

Houston City Council also approved \$18.8 million in funding for the first phase of the Houston Spaceport project at Ellington Airport on October 17, 2018. The project encompasses the development of streets, water, wastewater, electrical power distribution facilities, and communications facilities necessary to attract future development.
