### Houston MBE Accelerator

The Houston Minority Business Enterprise (MBE) Accelerator is an outgrowth of the Partnership's efforts over the last three years which include focus groups with regional MBEs, creating an MBE Economic Impact Analysis, and launching the Houston Buyer Cohort pilot. The goal of the Accelerator is to promote spending with diverse businesses and to help Partnership members discover Houston-region MBEs that have a demonstrated track record of delivering goods and services for corporations.

Unlike many programs, the Partnership's Accelerator is not developmental or intended to build capacity. It focuses on minority businesses that are able to compete for business and can benefit from introductions and expanded access and networks.
