

Purpose

Through One Houston Together, the Greater Houston Partnership galvanizes the business community to transform our region into an inclusive place to live, work and build a business.

How We Work

Bringing together a network of over 120 businesses, institutions, and nonprofits, One Houston Together offers Partnership members data-driven insights, benchmarking, and best practices to drive change in two areas where we believe the business community can have the greatest impact – creating pathways for talent advancement and leveraging our buying power.

One Houston Together's comprehensive resources and data help Partnership members identify starting points and develop strategic action plans to increase representation and positively impact our regional economy and our local communities.

Why This Matters

Leaders need clarity and support on what works to create significant, quantifiable, and sustainable impact to create opportunity for all.

One Houston Together helps Partnership members meet business goals and increase competitive advantage by leveraging the success factors that drive innovation, increase employee engagement, and diversify supply chains and leadership pipelines.

What We Do

We convene seasoned experts, practitioners, and business leaders to provide actionable insights on overcoming challenges, seizing opportunities, and building capabilities. Our offerings foster progress at all organizational levels, creating tangible results and empowering business leaders to drive meaningful change.

How Can Partnership Members Engage?

Participate in One Houston Together Talent and Inclusive Sourcing workstreams.

Inclusive Sourcing: Inclusive Sourcing Roundtable, Industry Working Groups, Houston Business Accelerator, CPO Convening

Talent: Talent Roundtable, Industry Working Groups, Talent Talk

Audience

Senior leaders from Partnership member companies (limited to two representatives per company)

We invite you to join our community of innovators who are increasing opportunity and shaping our region's future.
